- XevaSoft Online Groupware 1.7 is a complete and powerful groupware, which allows you to synchronize calendar, address book, group chat room, task lists and more. It can be used as a stand-alone solution to share information among users and groups or use it as part of your network and organize your company's communications. You can also use it as a document management and e-mail synchronization software. XevaSoft Office Network SaaS 1.0 is a small program to install your network file sharing software. The program is designed to be used to install and distribute a network file sharing software (for example, CIFS/SMB Server software) that is to be accessed by users from all your computers on your network. It includes the option to install a blank folder on the users' computers to download your shared files. XevaSoft Office Network SaaS provides very easy to use functionality to install and distribute software. The program automatically installs the software on each user's computer with just a few mouse clicks. If the program detects any network connection errors, it will not install any software. XevaSoft Office Network SaaS Description: XevaSoft Office Network SaaS is an easy to use program to install and distribute the software on each users computer on the network. The program automatically installs the software on each user's computer with just a few mouse clicks. If the program detects any network connection errors, it will not install any software. XevaSoft Image Finder 5.4.7.1 helps you to find and analyze images, creating reports that can be used to track down and correct image file errors, or to store image files in a networked drive. By using image tracking methods and

converting images to the GIF format, Image Finder can offer you the capabilities of a professional image file management software. It enables you to search, modify, and compare images; convert, rotate, crop and resize images;

XevaSoft Employee Manager Crack

Keyboard Macro enabled software. Includes all the features of the XevaSoft Keyboard Macro at a fraction of the cost. Run multiple macros at the same time. View the macros on-screen.
