I am about to install a version of Ubuntu 18.04.1 called "San Francisco", when I received an alert about an update. When I click "download updates", I noticed that this is a local repository which I can not close. Please help me deal with this problem. Thank you. Ä¼ : I noticed in the log file that there is a message about a script error and I found that the report of the error is in the file lr_report.txt. It is the report of the security update detection. Please try to type sudo apt-get update just to see if it will work. If the problem has already been dealt with, please delete lr_report.txt. Update 1 If you want to delete all the reports and you want to empty the /var/log/apt/history.log file, you can do it by entering these commands: sudo rm /var/log/apt/history.log sudo rm /var/log/apt/history.log.1 Ubuntu 18.04.2 LTS (Bionic Beaver) can detect security 6d1f23a050
